How to cite this retraction

Phillip A, Rossi G, DeSilva R (January 14, 2022) Retraction: Stopping the Revolving Door: Reducing 30-Day Psychiatric Readmissions With Post-discharge Telephone Calls. Cureus 14(1): r40. doi:10.7759/cureus.r40

Retraction Notice

This article has been retracted at the request of the authors due to miscommunication among them which resulted in a lack of consent from the lead author to submit and publish this article. This author was also not provided an opportunity to review, contribute to, and approve the revisions prior to publication. As a result, Cureus has chosen to acquiesce to this request and retract the article.
